About the course

On this course we look at getting even more from your internet device. We will look at cloud services, printing, storing and securing your data and images. We will look at specific apps that can make your tablet/smartphone even more useful to you.

What will the course cover and how will it be taught?

The course is a mixture of tutor led theory, class review and hands on exercises. The aim is that at the end of the course you are confidently exploring the basic functions of your tablet, smartphone or pc.

What do I need to bring with me?

You will need a tablet or smartphone, fully charged. For the week where we look at the pc it would be ideal if you have a portable pc but not necessary.

Please bring a pen, notebook and your glasses, if you need them.
