### About the course

Learn how to do this simple but exciting and versatile technique. Drypoint prints are created by scratching a drawing into a metal or plastic plate with a needle or other sharp tool. This technique allows the greatest freedom of line, from the most delicate hairline to the heaviest mark.

### What will the course cover and how will it be taught?

Teaching will be done by practical demonstration, looking at the work of contemporary printmakers, and by individual exploration and experimentation. The course is aimed at beginners and those who already have some experience in printmaking and want to develop their work further.

### What do I need to bring with me?

An apron and disposable gloves. Sketchbooks and some drawing materials  
A collection of images/photographs to work from.  
Masking tape  
Craft knife and scissors

Please bring a pen, notebook and your glasses, if you need them.
