

Support Arts & Culture in South Lakeland

Mission: Impossible – Dead Reckoning Part One

Promote your business, reinforce your brand identity, reach over 50k potential customers per year, and support the arts with a Brewery Cinema advertisement.

Cinema advertising is a cost-effective way to target new & existing customers. Offer your business an affordable way to amplify a mixed-media advertising campaign.

Your 30 seconds of screen time is played between trailers, before the national advertising and main feature presentation. Film trailers are a big part of the pre-film experience and having your advert playing between the trailers means you have a captive and engaged audience.
